Experiment - 1

Cloud-Based Flight Reservation System Using Zoho Creator (SaaS)

Aim

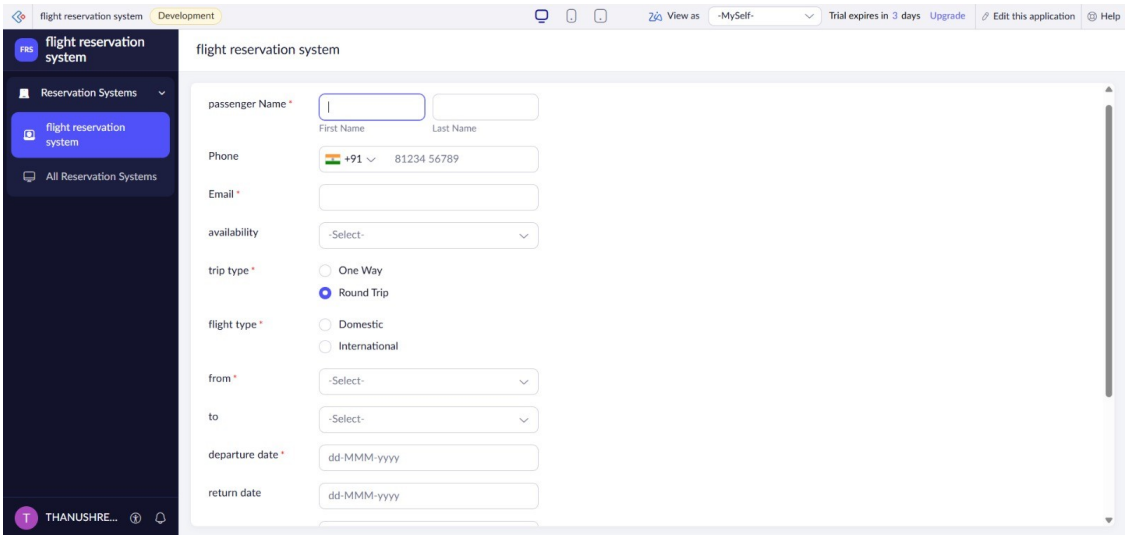

To create a Cloud-Based Flight Reservation System using Zoho Creator as a Software as a Service (SaaS) application.

Procedure

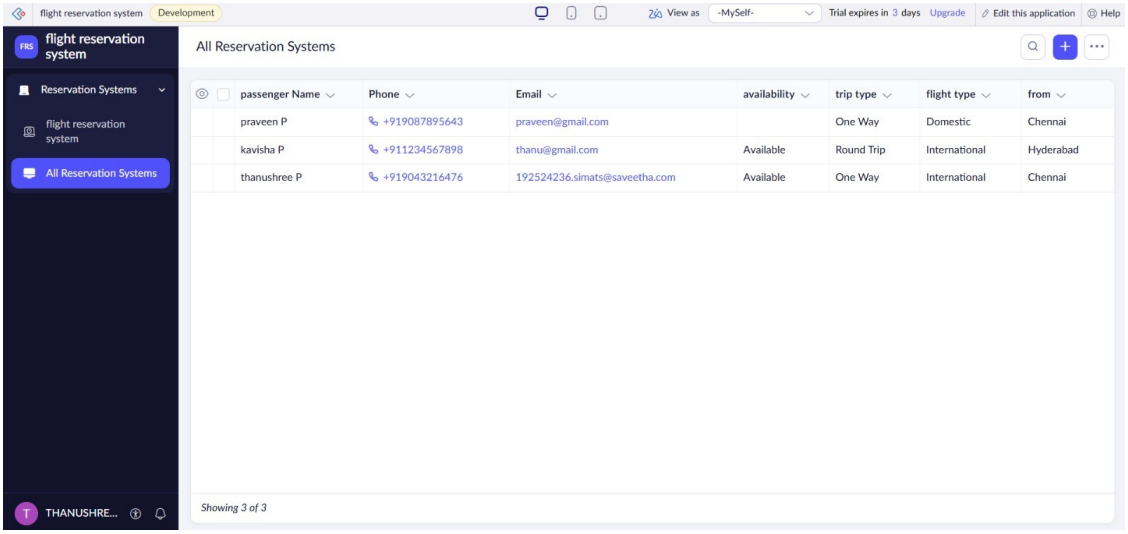

1. Log in to the Zoho One cloud platform.
2. Open Zoho Creator from the Zoho One applications.
3. Create a new application named Flight Reservation System.
4. Create a new form named Flight Reservation System.
5. Add the required fields:
    - Passenger Name
    - Phone
    - Email
    - Availability
    - Trip Type
    - Flight Type
    - From
    - To
    - Departure Date
    - Return Date
6. Configure the field types according to the data required (Name, Phone, Email, Dropdown, Radio and Date fields).
7. Design and arrange the form for easy user interaction.
8. Save and publish the form.
9. Enter sample flight booking details into the form.
10. Submit the form and verify that the entered data is stored in the cloud.
11. Test the application by entering different booking details such as One Way / Round Trip and Domestic / International flights.
12. Verify that the Flight Reservation System works successfully as a SaaS application.

Implementation

Input:

Output:

Result

Thus, a Cloud-Based Flight Reservation System was successfully created using Zoho Creator and demonstrated as a Software as a Service (SaaS) application.
