Experiment - 3
Cloud-Based Cab Booking System Using Zoho Creator (SaaS)

Aim

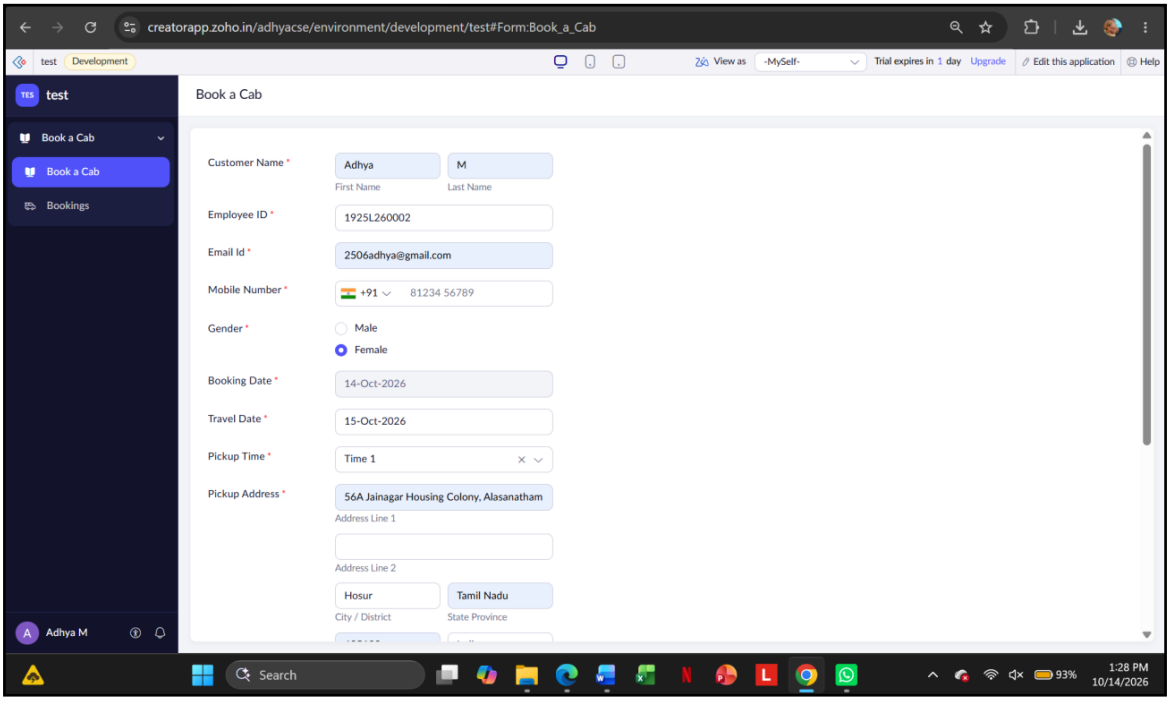

To create a Cloud-Based Cab Booking System using Zoho Creator as a Software as a Service (SaaS) application.

Procedure

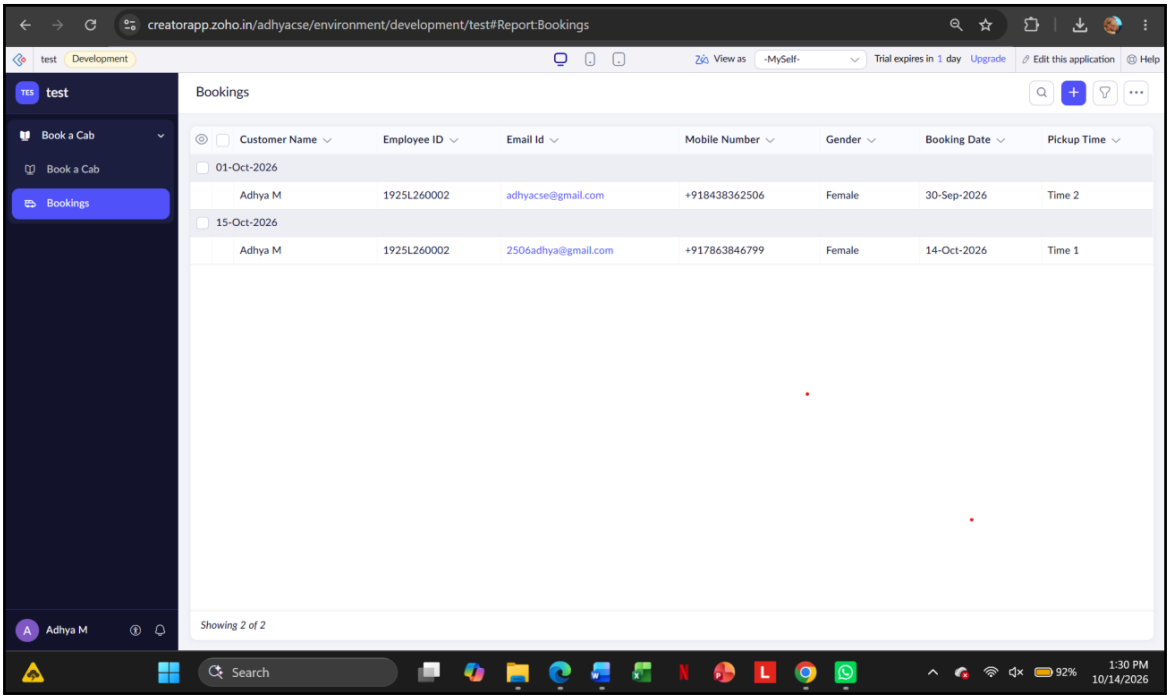

1. Log in to the Zoho One cloud platform.
2. Open Zoho Creator from the Zoho One applications.
3. Create a new application named **test**.
4. Create a new form named **Book a Cab**.
5. Add the required fields:
    - Customer Name
    - Employee ID
    - Email Id
    - Mobile Number
    - Gender
    - Booking Date
    - Travel Date
    - Pickup Time
    - Pickup Address
6. Configure the field types according to the data required (Name, Text, Email, Phone, Radio, Date, Dropdown and Address fields).
7. Design and arrange the form for easy user interaction.
8. Save and publish the form.
9. Enter sample cab booking details into the form.
10. Submit the form and verify that the entered data is stored in the cloud under the Bookings report.
11. Test the application by entering different booking details such as different travel dates and pickup times.
12. Verify that the Cab Booking System works successfully as a SaaS application.

Implementation

Input:

Output:

Result

Thus, a Cloud-Based Cab Booking System was successfully created using Zoho Creator and demonstrated as a Software as a Service (SaaS) application.
